

## Square Doily of Hearts

This is made of four small square doilies joined to a larger doily as shown in the diagram. Please note that the squares are joined only around the points of the hearts.

To make the doily less floppy you might add a four leaf clover in the spaces between the sides of the squares (see the diagram). All the rings in the clover are 5+5. Join as shown by the arrows.

More squares may be added to make other shapes. Here are some suggestions.
